

The Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear The Federal Communications Commission,

Dear Chairman Martin, I'm taking this opportunity to lobby against the universal access fee, and a flat fee change to it. I believe that the primary purpose of the original fee is in fact complete, and that the fee should be canceled not raised. If it is not canceled it should be reduced or kept the same.

Under the flat fee or numbers-based plan you are considering, people like me who make few long distance calls would pay the same as people or businesses that make many calls. I believe it would be unfair to charge low-volume and residential customers the same fees as high-volume residential or business customers.

I urge you to remove the USF or keep the USF fair, and adopt the Fair Share Plan. Thank you, and best of luck in your new position.
